Pigeon Planner Portable Crack + [Updated] 2022

Available languages Portable Pigeon Planner can be used in English, French, Italian, German, Spanish, Greek, Russian, Japanese, Arabic and many more. You can even use the program in other languages provided that you can translate its file into your native language. Change language during Pigeon Planner Portable installation process You can use Portable Pigeon Planner in the current language and install it to a new computer in the desired language. The application will be installed on the computer along with a dictionary and the user interface will be translated to the desired language. Various settings in Pigeon Planner Portable Pigeon Planner Portable offers a number of options that enable you to set the program's interface and a number of other parameters. These include the choice of the file name for the application (database), the default options that will be used whenever the program is opened and settings regarding the look of the toolbar and menus. Other user interface options The application is pretty easy to use. While you are not going to come across any issues while setting up the program, you can even make changes to the settings and options. You can make these changes by opening the program's options window (right-click). For example, you can decide whether the application should display the statistics in daily, weekly, monthly or yearly intervals and the format in which they should be displayed. You can also decide which settings should be used in a tournament, the number of pigeons you want to enter into a tournament or whether you should allow starting pigeons to be used for entry. Additional features If you decide to input information regarding a pigeon's medication, you can do that by clicking the "Medication" button in the upper-right corner. You can then decide whether you want to enter the dosage and if it should be changed automatically, as well as the type of medication. The details that are uploaded to the database can be edited by clicking the "Modify details" button. It is also possible to add notes and upload media files. The most important of these is the media file, since it lets you store media files directly on the database. This application is a good option for both novice and experienced pigeon fanciers, as it does not require installation and enables the user to control the information regarding their birds with ease. The user interface is clear and simple to use, and
